Professional Summary

Motivated Computer Science (Data Science) student with strong proficiency in Java, C++, Python, and Data Structures & Algorithms. Experienced in developing software projects using Python, Java, and web technologies. Demonstrates analytical thinking, problem-solving skills, and a keen interest in software development and business-oriented solutions. Eager to contribute to consulting and business management roles by leveraging technical expertise and collaborative abilities.

Professional Experience

Industrial Trainee · **Spoken Tutorial, IIT Bombay** · Aug 2024 - Sep 2024

- Completed industrial training focused on programming languages including C, C++, Python, and Java.
- Gained practical exposure to software development and collaborative project work.

Projects

Resume Analyzer (ATS System) · Jan 2026 - Feb 2026

https://github.com/Jitendra7867/Resume-Analyzer

Python Flask

- Developed a web application using Python and Flask to analyze resumes and calculate ATS scores.
- Extracted and processed text from PDF/DOCX files to identify skills, keywords, and sections.
- Implemented a scoring system based on skills, action verbs, and achievements to provide actionable feedback.
- Generated detailed reports with suggestions for resume improvement, enhancing user employability.

DSA Visualizer · **https://github.com/Jitendra7867/DSA-Visulizer** Aug 2025 - Oct 2025

C++ Web Technologies

- Developed an interactive tool to visualize algorithms such as sorting and searching.
- Implemented visualizations for Bubble Sort, Selection Sort, and Linear Search to aid understanding.
- Utilized C++ and web technologies to display step-by-step execution of algorithms, improving learning outcomes.

YouTube Downloader · Apr 2025 - Apr 2025

https://github.com/Jitendra7867/Youtube_Video_Downloder

Python CustomTkinter

- Built a desktop GUI application using Python and CustomTkinter.
- Enabled video downloading with multiple quality options, including 4K.
- Added progress tracking and video preview features to enhance user experience.

Education

B.Tech in Computer Science (Data Science) · · 9.3 CGPA · Jan 2023 - Present

BK Birla Institute of Engineering and Technology, Pilani

XII (RBSE) · · 77.8 · Apr 2022 - May 2023

Pankaj Public Sr Sec School, Teeba Basai (Jhunjhunu)

Skills

Programming Languages

C C++ Java Python

Web Technologies

HTML CSS Flask

Data Science Tools

Pandas NumPy Matplotlib Seaborn

Database

SQL

Core Concepts

Data Structures Algorithms Object-Oriented Programming (OOP) Machine Learning

Tools

Git GitHub VS Code IDLE Python Jupyter Notebook Linux (Basic Commands)

Achievements

Smart India Hackathon (SIH) Participant · May 2025

Participated in a national-level hackathon, collaborating with a team to develop innovative solutions under time constraints.

DSA Problem Solving Practice · Oct 2025 - Present

Solved numerous Data Structures and Algorithms problems to enhance coding proficiency and logical reasoning.

Certificates

C, C++, Python Programming Certification · Spoken Tutorial, IIT Bombay Jul 2024 - Sep 2024

Machine Learning Certification · Kodacy May 2025 - Jul 2025

Java Programming Certification · Spoken Tutorial, IIT Bombay 2025 - 2025
